

CONCRETE PIPE PALLETS & MOULDS

ASTRAL has a good reputation for its concrete pipe mould production in European and Middle Eastern markets as a result of its joint-venture projects with Schlüsselbauer company, who is the leader in the world for concrete pipe machines and other sewage system products.

ASTRAL with its capacity of lathing any size and shape of moulds up to Ø3000mm is able to manufacture moulds according to customer requirements either from cast iron or from steel construction.

Top and Bottom Pallets are the mostly requested requested and produced product of ASTRAL and they are used to shape the transition, socket/spigot surfaces of concrete pipes and we are able to supply an accuracy of $\pm 5\text{mm}$ in the connection points.
